## EDUCATION

---

### Metropolitan State University of Denver

Denver, CO

*Bachelor of Science in Computer Science, Relevant Coursework: Software Development Methods • Computer & Network Security • Networking & Distributed Computing • Data Structures & Algorithms • Database Systems • Operating Systems*

December 2025

## EXPERIENCE

---

### Instacart Shopper

2021 – Present

- Deliver exceptional customer service while managing multiple concurrent orders in fast-paced environments.
- Resolve customer issues through effective communication, adaptability, and problem-solving.
- Prioritize competing tasks while consistently meeting strict delivery deadlines.
- Demonstrate professionalism, organization, and attention to detail in every customer interaction.

### Package Handler

2020

*FedEx*

- Processed high volumes of packages while maintaining productivity, accuracy, and workplace safety.
- Collaborated with team members to ensure efficient shipment processing and on-time operations.

### Line Cleaner

2019 – 2020

*Waterway Carwash*

Denver, CO

- Delivered high-quality vehicle cleaning services while consistently completing vehicles in under 15 minutes.
- Worked efficiently in a fast-paced, team-oriented environment while maintaining exceptional quality standards.
- Earned positive customer feedback and tips through attention to detail, professionalism, and strong work ethic.

## PROJECTS

---

### Docker Deployment Lab | Docker • Linux • Git • CI/CD

- Built and deployed containerized applications using Docker to create consistent development and deployment environments.
- Created Docker images and managed containers, networking, and volumes to improve application portability.
- Configured Linux environments and resolved deployment issues through systematic troubleshooting.
- Applied Git version control and DevOps best practices to streamline development workflows.

### Password Vault | Python • Authentication • Encryption • SQLite

- Developed a secure password management application for storing encrypted user credentials.
- Implemented user authentication, encrypted password storage, and secure data management practices.
- Designed an intuitive interface for managing, searching, and updating stored credentials.
- Applied secure coding principles to strengthen application security and reliability.

### IT Support Dashboard | React • JavaScript • REST APIs • SQL

- Designed and developed a responsive dashboard for managing IT support tickets and system status.
- Built reusable React components to improve usability across desktop and mobile devices.
- Integrated REST APIs to retrieve, display, and manage support requests efficiently.
- Utilized Git and Agile development practices to deliver maintainable, scalable software solutions.

## TECHNICAL SKILLS

---

**Programming Languages:** Java, Python, JavaScript, SQL, C++, HTML5, CSS3

**Frameworks & Libraries:** React, Next.js, Node.js, Express.js, Tailwind CSS

**Databases:** PostgreSQL, MySQL, SQLite, Supabase, Prisma ORM

**Cloud & DevOps:** Docker, GitHub Actions, CI/CD, Kubernetes (Fundamentals)

**Tools & Platforms:** Git, GitHub, Linux, macOS, Visual Studio Code, IntelliJ IDEA, Postman

**Core Concepts:** Object-Oriented Programming, Data Structures & Algorithms, REST APIs, Authentication, Responsive Design, Agile/Scrum, Software Testing

## LEADERSHIP

---

Black/African Student Engagement (BASE) Metropolitan State University of Denver | 2023 – 2025 - Participated in leadership development, networking, and professional engagement initiatives. - Collaborated with peers to support student success and community involvement.
